

Julie M. Evans

Web Developer / Software Engineer / Full-Stack Developer

PROFILE

For as long as I can remember I have been an avid learner. I enjoy learning new things, especially pertaining to languages, including programming languages. I like to understand the fundamentals of things and know how they function. I have an eye for design, and I like it when what I work on turns out looking nice. I'm quite the perfectionist, but I try to use it to my advantage when I can. I consider myself a problem-solver, and I like to solve puzzles or make puzzles out of difficult things. Strengths in cultural and linguistic knowledge backed by training in Integrative Studies and Study Abroad experience. Skilled with Microsoft Office, as well as Google and Apple counterparts.

EXPERIENCE

TED Conference LLC — Volunteer Translator

OCTOBER 2020 - DECEMBER 2020

Listened to Japanese video dialogue and developed translation into English along with time-coding for subtitle scripts.

Naqada Studio — Freelance Translator

MAY 2020

Translated Japanese subtitles from transcription and listened to anime video dialogue for translation reference.
